

# NPAV Atomic Time

Employee Productivity Software

- NPAV atomic time is an employee productivity monitoring software.
- Immensely helpful product for System Admin, Managers and other higher authorities.
- Efficiently monitors employee attendance, productivity, and other key metrics.
- Adaptable for any work model, whether from home or office.
- Monitors user engagement by tracking work hours, idle periods, and other computer activities.
- Captures screens of employee Pcs.
- The product has other features such as device tracking, hardware information, etc.
- Net Protector has invested significant resources in researching, developing, and mastering the field of cyber security. As a result, we proudly present NPAV Atomic Time, a cutting-edge product designed to enhance your security measures.

## Key Features

Effortlessly Track Employee Work Hours

Unlock Insights with Employee Work Reports

Gain Insight into Process Efficiency

Enhance Oversight with Automatic PC Screenshot Capture

Effortlessly Track User Idle Time

Unlock Insights into User Activity

Monitor PC Lock and Unlock Activity

Explore Comprehensive PC Hardware Details

# Features of NPAV Atomic Time

## Dashboard

Effortlessly Track Employee Work Hours:

- Gain insights into employee productivity with detailed records showcasing daily and monthly work hours.
- Monitor individual performance seamlessly, whether it's day-to-day progress or monthly achievements.

## Report summary

Unlock Insights with Employee Work Reports:

- Effortlessly display comprehensive work reports featuring employee name, hours worked, and dates.
- Gain clear visibility into individual performance, ensuring transparency and accountability.

## Detail Activity

Gain Insight into Process Efficiency:

- This powerful feature allows you to effortlessly track the time spent on each specific task, showcasing vital details including process name, duration, and time stamps of initiation and completion.
- Stay informed with a clear overview of when each process was first seen and last seen, empowering you to optimize work flows effectively.

## Automatic Screenshot

Enhance Oversight with Automatic PC Screenshot Capture:

- Empower your monitoring capabilities with this feature, designed to capture snapshots of employee PC screens at five-minute intervals.
- Stay informed and ensure accountability with a visual record of workstation activity, providing valuable insights for performance evaluation and compliance monitoring.

## Idle time

Effortlessly Track User Idle Time:

- This feature intelligently monitors user activity, promptly detecting periods of inactivity.
- If a user remains idle for five minutes, an idle time menu displays, highlighting the duration of their idle periods.
- Stay informed about productivity patterns and encourage engagement with insightful idle time monitoring.

## PC Event Tracker

Unlock Insights into User Activity:

- This feature provides a clear overview of how many times users lock and unlock their PCs.
- Stay informed about user behavior patterns with this intuitive tool, enabling you to track workstation usage effectively and promote security-conscious practices among your team.

## Event Log

Monitor PC Lock and Unlock Activity:

- This innovative feature keeps users informed about the frequency of PC lock and unlock events, while also calculating the total duration of both states.
- Gain valuable insights into user behavior and workstation usage patterns, empowering you to optimize productivity and security effortlessly.

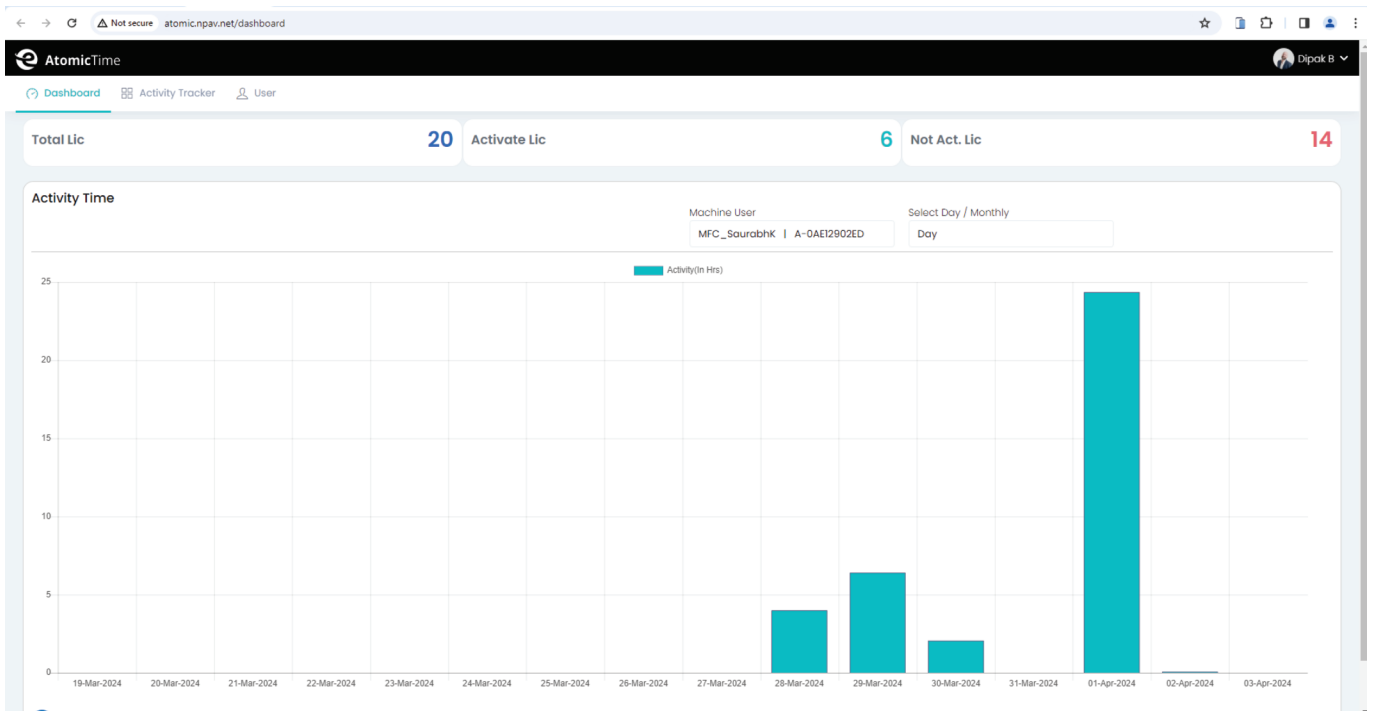

## PC Configuration

Explore Comprehensive PC Hardware Details:

- Unlock a wealth of insights with this feature, offering users detailed information about their PC hardware.
- From processor specifications to memory details and more, gain a comprehensive understanding of your device's capabilities at a glance.
- Stay informed and empowered to make informed decisions about your hardware setup.
